## **HISTORY OF MARIANHILL**

Marianhill was founded in 1954 by the Grey Sisters of the Immaculate Conception and has since its conception aimed at providing quality care. Upon construction of the new General Hospital, the Grey Sisters of the Immaculate Conception converted the old hospital into a Home for the Aged called Marianhill, providing care for over 100 residents.

The present Marianhill was built in 1980-81. Marianhill is governed by a Board of Directors, consisting of men and women from throughout the community. The Board of Directors is accountable to the Catholic Health Corporation of Ontario, the Ministry of Health and to the public, and governs in the interest of Marianhill and those we serve.

Marianhill has evolved into a 200 bed facility. Marianhill offers long term and complex continuing care, including a palliative care unit, which serves the Pembroke area. The Dr. L.U. McCluskey Centre provides dementia respite services for individuals suffering from Alzheimer Disease or a related dementia. Marianhill also serves the community with adult day programs as well as in home respite and assisted living services.

Marianhill emphasizes independence, choice, respect for privacy, and dignity of the person. The Board of Directors and staff members strive to follow the example of St. Marguerite d'Youville by offering compassionate care within Marianhill and the community.

Marianhill is pleased to have the opportunity to work with individuals and organizations throughout the Upper Ottawa Valley. More than 160 volunteers support our work at Marianhill. We also benefit from the support of area service clubs, private donations and memorial contributions, which help us attain items that are not covered by government funding.

We welcome you to Marianhill!

Dental appointments may be arranged on a regular basis.

Good oral hygiene has resulted in the prevention and treatment of oral diseases such as periodontal disease. Good periodontal health starts with you; visit a dentist at least twice a year for a thorough cleaning and oral examination. We recommend that residents have their dentures personally labeled.
